

MIRACLE POWER-X

엔진오일 성능개선제

Miracle Power-x "motor-car"

www.greenact.co.kr

WHY IS THE AGING ENGINE RESTORED?

- Simply put the Miracle Power-X in the engine oil room and a miracle happens in about 30 minutes.

It is fundamentally different from fuel additives and conventional oil additives.

Engine oil performance improvement agent - It is a state-of-the-art new technology that creates engine oil optimization while also coating the engine.

Miracle is an engine oil performance improvement agent that improves fuel efficiency, reduces soot, enhances output, reduces noise, and restores engines.

Miracles form a new era in cars, ships, and internal combustion engines, and in just 30 minutes after injection, the car or ship becomes very different.

When it comes to engines, carbon waste is caused by various sediments, such as iron powder, that is, soot.

Sediments are carbon debris generated by the burning of a vehicle

Automotive Engine Division

WHEN YOU INJECT 50 BOTTLES OF FUEL ADDITIVE INTO THE FUEL CAN - 1 BOTTLE OF MIRACLE POWER - X. IT'S A MIRACLE OIL MIRACLE THAT GIVES 100% CARBON WASTE AWAY.

BY INCOMPLETE COMBUSTION - CARBON WASTE IS CREATED.

- The engine has carbon stains and various foreign substances, including pistons, in every corner of the engine, so will the car burn.

It is the principle that the engine is energized by removing various carbon debris attached to the engine.

If the car is more than two years old, unstable combustion begins - that is, carbon is produced, power is reduced, and fumes are produced.

In order to increase the output of passenger cars, ships, trucks, it must be completely burned and the engine oil condition must be optimized.

If there is carbon waste in the engine, the car ship does not speed, only the RPM rises, and the wheel rotation shaft rotates.

If you inject Miracle Power-X, the RPM goes down and the rotating shaft works, so it gets power.

Miracle injection removes carbon debris from every corner of the engine - miraculously restores to a new engine, so the engine is always new.

When carbon gets stuck in the engine, internal combustion engines, ships, and automobile engines burn unsteadily, generating smoke and reducing engine power.

As carbon builds up in the engine, octane prices fall, fuel is consumed a lot, output is lowered, and soot is emitted.

* However, as soon as you inject Miracle Power-X, it burns completely, and the fumes that used to be cool immediately disappear and the engine becomes new.

When Miracle Power-X is injected, the engine thins and runs through the road or sea without hesitation.

If carbon waste is given without 100%, the smoke disappears, reducing fuel efficiency.

It also reduces engine noise - must be Miracle Power-X injected.

1L

km 상승

miracle-Power-X

Miracle injection is the best product to drive while making money - reducing smoke by more than 95%.

Giving 100% of the carbon waste attached to the engine reduces fuel efficiency and improves power.

It's fun to save fuel economy. It's easy to drive because it has improved output.

Save my car - if you always want to get a new one - you must inject Miracle Power-X.

Miracle Injection – All internal combustion engines

- car, sedan,
- saloon

- ship,
- vessel

- Tank Trucks

Yeosu 87 Tone Fishing Boat - Miracle Injection

As a result of injecting it into an 87-ton Miracle ship, fuel efficiency was reduced by 25%.

It removes 100% of the carbon waste, so it disappears every year. It improves output and reduces fuel efficiency

Miracle Power - Vehicle SUV Injection Method

The amount of engine oil must be injected when the pull (F) is normal.

If the amount of engine oil is insufficient, make sure to replenish and inject it.

+ Shake the Miracle Power left and right for 1 minute and inject it into the engine oil inlet.

+ Inject Miracle and warm up for 2-3 minutes.

Warming up is to warm up the regular oil in the engine and Miracle to mix well

When I go for a regular car inspection

+ When the date of the regular inspection is set, Miracle Power-X is injected 3-4 days in advance.

+ After injecting Miracle Power-X, drive at 40-50 keys at high speed, and when you go to the inspection site, you'll pass right away.

+ Vehicles that fail the regular smoke inspection will pass as soon as you inject Miracle Power-X.

Vehicles that fail the routine inspection will be injected with Miracle Power-X and raised to 4,000 RPM and warm-up for 4-5 minutes

If you go to the prosecutor's office, you'll be accepted right away.

+ Miracle Power - X injection removes carbon waste from the engine, eliminating fumes and increasing power

It reduces fuel efficiency, reduces engine noise

Miracle injection NO1

Miracle injection reduces fuel efficiency by more than 17-25%.

When you inject fuel additive 30 into the fuel tank - Miracle Power - 1 bottle of X, the car will be completely different

THE INVENTOR'S HISTORY

- While doing business in Eastern Europe, I came across Miracle products. I got Miracle from James, a nuclear physics Ph.D. who worked in Germany
- (Berlin Laboratory)
You put Miracle in the car you were riding at the time and in Germany
After going to Austria several times and testing Miracle
After confirming that fuel efficiency improvement, output increase, noise reduction,

- and smoke reduction are certain, return to Korea
"Invention Patent Registration"

Microrens Meter Treatment that combines German original technology with new domestic technology
the history of change

1st Generation ACT-GREEN (Engine Improvement)

2nd Generation ACT-ENGINE KING

3rd generation engine wangold (engine oil performance improvement agent)

4th generation Miracle fuel efficiency king (engine oil performance improvement agent)

5th Generation Miracle Power - X Fuel Economy Improvement by 20%. Output Increase 7HP

AWARDED IN THE ECO-FRIENDLY CATEGORY

When you inject 50 bottles of fuel additive into the fuel tank - Miracle Power - X, you can inject 1 bottle.

Even if you inject Miracle Power into an LPG vehicle, turn on the air conditioner, and cross the road - it goes up very fast because it's so powerful.

VARIOUS PLAQUES

It saves fuel efficiency by giving 100% of the carbon waste attached to the engine.

Save my car - if you always want to get in a new one - you must inject it.
